

Mission & Goals

Mission

House of Hope, Inc. is an adult treatment center that provides a safe environment for individuals who have a desire to develop a recovery program from Substance Use and Mental Health Disorders.

Goals

To provide comprehensive, life-changing treatment programs that address individual needs.

To provide high quality facilities capable of responding to our community needs.

To expand awareness of addiction and to promote a positive healing environment.

Individualized Tracks

- Individual counseling is offered for those clients who are not appropriate for group counseling services. This is based off of counselor assessment.
- Shorter or less intensive group tracks can be arranged to meet individual clients needs based upon counselor assessment.
- Number of sessions based on client needs.

House of Hope, Inc. is a treatment facility that provides a safe environment for adults who desire to develop a recovery program from substance use and mental health issues.

Substance Use Disorder / Serious Persistent Mental Illness Program

This program is tailored to serve the needs of those who suffer from both Substance Use Disorder and Severe and Persistent Mental Illness (Major Depression, Bi-Polar Disorders, Schizophrenia, Borderline Personality Disorder). The enhanced Illness Management and Recovery model is used. The program structure is non-episodic (acute) and will provide a longer- term length of care (typically 8 -12 months dependent upon the client's progress) with integration into a "person-centered" recovery focused Continuum of Care. Due to the high demand for this program, as well as the nature of this population, an intensive screening process will be utilized to determine appropriate placement in this program. Clients must be referred by a county worker, mental health professional or substance use disorder program.

Day and Evening Intensive Outpatient Program (Mankato, St. Peter, Waseca)

The Intensive Outpatient Programs are designed for those with a substance use disorder diagnosis. Clients begin with 10 hours of programming per week. This is reduced as clients progress through the program. The average length of programming is 14-16 weeks, dependent upon client progress, completion of treatment plan goals and attendance.

Supplementary Services

- Individualized Track
- Drug Court Programming
- Co-Occurring Programming
- Individual Assessment
- Gambling Assessment
- Equine Therapy (Monthly)
- Medication Management
- Client Transportation Available

What is an Assessment?

Our assessment process provides a wealth of information about the client's current condition, including co-occurring issues. Substance Use Assessments are conducted in private settings by professionals that are trained to diagnose addictions. A House of Hope assessment is a one session interview geared to produce a diagnostic impression and appropriate recommendations for level of care.

Need an Assessment?

If you believe you or a loved one are in need of an assessment call 507-385-8774 to schedule an appointment.

How can I pay for treatment?

- Private or State Funded Insurance
- Consolidated Funding (county/state assistance program)
- Self-pay (payment plan options)
